Sex (dog & cat)	Male <input type="checkbox"/> Male Neutered <input type="checkbox"/> Female <input type="checkbox"/> Female Neutered <input type="checkbox"/>
Sex (equine)	Stallion <input type="checkbox"/> Mare <input type="checkbox"/> Gelding <input type="checkbox"/>
Further information	Age: _____ Breed: _____

IS THIS A REPEAT SUBMISSION? Yes No If yes, please state previous test number: _____

CHECKLIST FOR SEROLOGICAL ALLERGY TESTING

Is the animal currently symptomatic? (this would be the optimal time to sample and serum can be stored and tested later if preferred) Yes No

Has the animal been off any medication that may affect testing for the appropriate length of time? (please see www.avactaanimalhealth.com/vets/submit-a-sample) Yes No

Has the animal had any dietary restrictions for the past 2 months (food test only)? Yes No

Has the sample been spun down to provide serum? (serum is preferred to reduce the risk of haemolysis; if this is not possible, please supply double the requested serum quantity of whole blood) Yes No

MEDICAL INFORMATION

Primary clinical signs: Skin Respiratory Gastrointestinal Otitis
